

Archangel Chamuel is on your team

I live in a 3 story house and to my annoyance I would often misplace small items. I used to spend lots of time hunting around for them and this would create small spikes of stress for me. I remembered being at one of Doreen Virtue's workshops and she had said call on Archangel Chamuel to help you find missing objects.

The way I work with this angel is to simply say "Chameul thank you for helping me locate my" I pause, take a breath, and listen. I have never been let down even once. Some times when I did not find the item right away it was because I was in fear and urgency prevailed - I wanted to find the item right away. This blocked me from receiving messages from my angels. When we are in struggle, stress, or the "have to's", or time urgency, this is a clear indicator that we are in fear based thinking.

If you feel any stress in your life regarding relationships, losing items, or you want to feel more peace and clarity, I highly recommend working with Archangel Chamuel. He is right by your side as soon as you think about him and is very eager to assist you. There is nothing that is too small to help you with. Archangel Chamuel's overall plan is to help each person find more inner peace and power.

Try this exercise:

1. If you misplace something call Archangel Chamuel in and ask for help.
2. Make a decision to work with Archangel Chamuel for a period of time. Like any good relationship the more time you put in, the more the relationship gets richer and deeper.
3. Ask Archangel Chamuel to assist you to create more peace in your life. Sending you all much love, light, laughter, ease and joy.
